## NORRIS RESIGNS AS COUNCILMAN

Special Meeting Will be Held Next  
Monday Night to Elect a  
Successor.

### PROPERTY OWNERS KICK

Supt. A. T. Mahin's Report Shows  
\$12,344.91 Has Been Spent in  
Hunt For Water.

O. C. Norris, state representative-elect, tendered his resignation to the city council last night and the first authentic report of the cost of the "still" hunt for water that has been carried on here for many months was made in an itemized financial statement prepared, at the request of the finance committee of the city council, and submitted by A. T. Mahin, superintendent of the city water and light plant.

O. C. Norris' successor will be named at a special meeting of the city council next Monday night. The law provides a vacancy shall be filled by the council at a special meeting not less than two days or more than fifteen days from the time the seat is declared vacant. Norris was a councilman-at-large.

It is said that two rather prominent Democrats in Rushville are in a receptive mood. They have made it known to the Republican members of the council that they would take the job if it were thrust upon them, but the Democratic members of the council have not yet expressed themselves either way. It is said, however, that they have practically agreed on one man as the result of a recent agreement.

The members of the council bade farewell to Councilman Norris. In behalf of the council Mayor Black expressed the regret that was felt with the passing of Norris to higher legislative bodies and greater tasks. He said the associations in the council chambers had been pleasant and that it was with sadness, in a measure, that the council looked forward to council meetings without the affable Mr. Norris present. The retiring councilman said he appreciated the kind things said about him and that, while the path had been stormy at some times, he felt that the council had accomplished something. He enumerated them.

After considerable dickering Thomas Geraghty, Sr., was given the contract for establishing a grade in East Ninth street near Benjamin. He is to take the surplus in Ninth street and fill a low place in Benjamin. He agreed to take the contract at \$135, the city to pay for alleys and crossings to the sum of \$46.20 and get the remainder from the property owners as best he could.

Jesse Woliung, Claire Johnson and G. P. McCarty, residents of George street, complained to the council about the kind of gravel that is being used to repair the street. They declared that it was 75 per cent. sand and the rest dirt and that it would not pack but in a short time make a mud hole. The contractor was at the meeting. He said he had ordered the gravel taken off the street and he ordered some from Shelbyville. Councilman Moore said he had inspected the gravel and that it was of inferior grade.

Councilman Parsons raised a question about paying Wilbur Hall for two weeks' police service. He wanted to know if the chief of police should not pay a man working while he was on a visit. Councilman Norris said Chief McAllister had asked him for a vacation to visit his mother.

## TRAIN BACKS INTO I. & C. CAR

Passengers Have Lucky Escape in  
Greensburg Accident.

A Big Four freight train backed into an I. & C. car in Greensburg Monday night and although the rear end of the car was demolished, the four passengers escaped injury. The freight train was backing around the "y" and the motorman failed to see the train until he was on the track. He tried to get the car across but the train struck the rear end. The vestibule was torn off and the car derailed. The passengers attribute their safety to the fact that they were in the front end of the car.

## JOINT MEETING HERE THURSDAY

Commissioners of Rush, Shelby and  
Hancock Counties Will Hold  
Brief Road Session.

### SUPPLIES CONTRACT IS LET

The county commissioners adjourned late yesterday afternoon sine die but they will meet here in joint session Thursday with the boards of Shelby and Hancock counties to agree to an extension of time for completing the Murray Moore road which passes through the three counties.

Before adjourning yesterday the commissioners granted the contract for supplies for the year to the T. R. Woodburn Printing Company of Terre Haute. Theirs was the only bid submitted although four other concerns applied for specifications. The board yesterday also approved the bonds of Voorhees Cavitt, sheriff-elect, and A. R. Holden, auditor-elect.

The commissioners have awarded the contract for jail and court house supplies for the coming year. The Maunzy Company got the contract for jail supplies and H. G. Hackman for the court house. Both bid on each. The Mahin Electric Company was granted the contract for electrical supplies and the city was given the contract for supplying the court house and jail with light and water at the old price, \$1,100 a year. William Dagler got the contract for furnishing coal at \$1,090. Reynolds & Clifford's bid was \$8 higher.

## NOBLE TOWNSHIP FORGES TO FRONT

Second Allotment of Red Cross  
Seals Sent to the Vice-Pres-  
ident, Mrs. Mary Wellman.

### LOUISE KENNER SELLS 300

Rushville Workers Are Urged to  
Emulate Noble Township Boost-  
ers—Incident of Friday, 13th.

It is probable that Miss Louise Kenner of Noble township holds the record for the sale of Red Cross Christmas seals in Rush county. Up to yesterday she had disposed of three hundred seals and was urging that more be sent her immediately so that she would not lose any time between now and Christmas.

Noble township is forging ahead of all out townships and may give the city of Rushville a merry go for first place. Mrs. May Wellman, the Noble township vice-president, has sold her first allotment and has received a second consignment. She declares that they too will be sold.

The territory on which the Noble township workers have to draw is much smaller than Rushville's yet they are showing a determination and spirit which the officers of the county society hope will be emulated by the workers in the city.

It is urged that no one send a piece of mail these days without a Red Cross Christmas seal. It is not absolutely necessary to place them on mailable matter. They may be used on anything, but especially express the spirit of the season when the little green stamp, embellished with holly and a picture of Santa Claus, is stuck to a Christmas bundle.

The Tri Kappas will have the seals on sale at the postoffice every day until Christmas.

Practically every merchant in Rushville is selling them and many individuals are attempting to sell them so that it will require but little effort to buy them.

On Friday evening, December 13th, a party of men sat at dinner at the University Club in Indianapolis. They were planning how to extend the sale of Red Cross Christmas seals, for all of them were deeply interested in the advancement of the fight against tuberculosis. Somewhat of merriment had been made at the expense of the hoodoo date—Friday the thirteenth, and it was discovered that the man who arranged the dinner invited just thirteen guests. One of the doctors present had drawn seat No. 13 at table.

"Gentlemen, this is more than a coincidence," said this doctor, after the jokes had passed around among those seated. "And if you will indulge me in a bit of family history I will tell you why. Tonight is Friday the thirteenth. There are thirteen of us at this table. I am No. 13. And just thirty-one years ago tonight, which date was also Friday the thirteenth, my father died of tuberculosis. At his bedside I pledged myself to devote my life to fighting the dread disease which had robbed me of a father just when I most needed his care. Gentlemen, I have kept the pledge. I have seen the dread disease rob many another boy and girl of father and mother. Each incident has renewed my determination, and I shall still be fighting this terrible plague when the grim reaper calls me from the fray."

### G. A. R. ELECTION.

The G. A. R. will hold its annual election of officers next Wednesday, Christmas Day, in the sheriff's office in the court house. A large attendance is desired.

## MERCURY WILL DROP TONIGHT

Weather Man Predicts Colder Weath-  
er Will Follow on Heels of  
Snowfall Today.

### IT COMES IN UNANNOUNCED

Merchants Are Pleased Because They  
Believe Thoughts Will be Turn-  
ed to Holidays.

Merchants beamed, little folks were tickled clean through their skin and fond parents were delighted to day when the snow began to fall in large white soft flakes and the scenery hereabout began to take on a real aspect of winter, the first weather sign that the holiday season is approaching.

It was so warm today that more than half the snow that fell melted shortly after it touched the ground. The flakes came in such large numbers after a while, however, that about an inch fall was recorded.

The snow came unannounced. It virtually slipped up on the weather man. And it may continue to fall all night. The prognosticator declares that the temperature is going to fall tonight and that the tumble will be accompanied by high brisk winds from the northwest.

Although business men who are making appeals for Christmas trade have not been disappointed with the business thus far in the season they were pleased when real Christmas weather appeared today. They believed that the change will have an effect on buying and that more people will realize that Christmas is only a week distant.

The time to buy that Christmas present is now. During the last two or three days before Christmas the rush will be so great it will be unpleasant for both customers and clerks, so taking time by the forelock will be doing a good act all the way around.

More and more the people in this vicinity are coming to realize that it pays to trade in Rushville. The stores are getting better here each year and the service improves with the stock. It is safe to say that nowhere in Indiana will there be found in a city of this size with anything like the good stores found here. The larger cities have them, but they do not grow in towns the size of this. All this should create a feeling of home pride and it ought to be a genuine pleasure to patronize home business men when by so doing the general reputation of the city is given just that much more boost.

### COUNTY COUNCIL MEETS.

The county council will meet in special session Friday to make deficient appropriations and clean up the business of the year. It will be the last meeting of the year. It was stated in the auditor's office that nothing of any great importance would come before the council.

### REMAINS BROUGHT HERE.

Representative Finly Gray has made known that he will recommend the appointment of Charles B. Beck for postmaster at Richmond. Word was received yesterday by the Wayne county democratic chairman of Mr. Gray's choice. Mr. Beck is well-known to local democratic workers as he has served as county chairman of Wayne county and district chairman. He is the present district chairman. Mr. Beck is a shoe salesman and has always been interested in politics. With the Richmond appointment Mr. Gray has disposed of offices at Newcastle, Middletown, Shelbyville, Rushville and Liberty.

## B.C. BALL EXPIRES IN HIS MAIL WAGON

Nephew of I. L. Clifford of This City  
Dies Suddenly in Conners-  
ville.

### KNOWN TO LOCAL CARRIERS

Benjamin C. Ball, age thirty-seven years, died suddenly in Connersville while driving home to supper Monday evening in the buggy with which he delivered mail in the city of Connersville. His death was due to valvular heart trouble. Mr. Ball's horse stopped in front of a house and a pedestrian discovered that he was dead.

Mr. Ball has a nephew of I. L. Clifford, a local rural mail carrier. He was well known to the city letter carriers here especially and was held in high esteem by them. The Connersville branch entertained the local carriers once several months ago, and at that time the Rushville carriers became intimately acquainted with Mr. Ball. The news of his death cast a gloom over the local postoffice and kind tributes were paid the deceased carried at the Rushville office.

## SON SLASHES HIS FATHER WITH KNIFE

Sandusky Lad Leads up on Bad  
Booze and Then Attacks His  
Aged Parent.

### IS STABBED IN THE BREAST

Mort Chandler, aged nineteen years, came to town Monday and in the evening returned to his home in Sandusky, says the Greensburg Review. While here he became the possessor of a quart of bad whiskey, filled his hide with it, and when he landed at the parental domicile he was loaded for fair. His father, Ed Chandler, remonstrated with him, and the young man, it is alleged, whipped out a knife and proceeded to make it likely for his ancestor. As a result of the mix-up the elder Chandler has a stab wound in the breast, a cut across the back of his right hand, and is otherwise disfigured. Who sold the young man the liquor is the question that is agitating the people of Sandusky, and they propose to find out if they can.

J. C. Alger of North Morgan street is ill with kidney trouble. Mr. Alger is 89 years of age.

The Daily Republican Santa Claus fund is going to fall far short of last year's fund unless it pulls out of the slump into which it fell today.

There are a hundred or more friends of Santa Claus who must come to the rescue. The fund only gained three dollars today and, as stated yesterday, there will have to be an average of thirteen dollars a day in order to make it the equal of last year's.

The beautiful snow of today will probably turn the thoughts of many people to Christmas. With such a trend they can not but realize what a cheerless day Christmas would be in the homes of many poor unfortunate children in Rushville if the Santa Claus wagon did not visit them and leave them a package of Christmas cheer.

There is every reason to believe from the present data at hand that the number of children to be supplied with packages this year will be larger than last year. In 1911 more children were visited by the Santa Claus wagon than ever in the history of the fund.

The little folks are coming to the aid of Santa Claus valiantly. They have been in the majority in the list of contributors for several days. Their mites help out, only it takes lots of them, and other little folks who look out at the large white snow flakes today and contemplate Santa Claus' arrival on their roof should remember that there are some little folks who can not look with such pleasure toward the arrival of the most gladsome of all seasons in America.

Arrangements were made for the Republican's Santa Claus fund's gifts to be housed in the Maria Toolen room, corner of Main and First streets. All the wrapping and sorting will be done there. Mrs. Owen Kincaid will have charge of the wrapping. The aid of any one is solicited in this work. A great amount of work is entailed in this department and the more who will assist the quicker it will be done and the easier it will be for all concerned.

The contribution of the employees of the Innis-Pearce furniture factory was increased to twelve dollars today. Monday a contribution of \$11.25 was reported, and today seventy-five cents was added to the sum.

MAIL THEM NOW.  
Letters to Santa Claus must reach the Daily Republican office by Friday evening to insure publication. The youngsters have been so diligent in writing to Kris Kingle this year that the Republican has been swamped. All received up to Friday night will be published.

## BEATS MARK TWAIN'S FROG.

Started to Jump After Being Petrified a Thousand Years.

Workmen clearing and blasting rock on the L. D. Loomis property in Santa Monica canyon, California, found a frog imbedded in solid limestone, three feet beneath the surface. It had been incased in rock for probably several thousand years.

Apparently petrified, the amphibian was taken by the astonished workmen and laid in the sun. In a few seconds, it is solemnly averred by those who stubbornly hold to the truth of the story, it suddenly showed signs of life. After several minutes it blinked confusedly, drew a long breath and in long leaps traveled 100 feet before the workmen could recapture it. Just think of that! It certainly beats Mark Twain's historical frog.

## WALKED NINE MILES ASLEEP.

Eleven-year-old Girl, Barefooted, Went Over Unfamiliar Road.

Mary Ruth Smith, eleven-year-old daughter of Dr. and Mrs. L. L. Smith of Ulrich, Mo., recently walked nine miles while asleep.

She retired at the usual hour. The next morning her uncle, Walter Waugh north of Maurine, found her on his front porch clad only in her nightgown and an old coat of her father's. Her uncle asked her how she came there, but she only remembered having dreamed some.

She made the trip barefooted and over muddy roads. It is very doubtful if she would have been able to stand the trip if she had been awake. Also she was not well acquainted with the road.

## QUANTRELL SURVIVORS.

The Famous Band Passes Into History as an Organization.

The famous Quantrell band passed into history as an organization when a little group of white haired, stoop shouldered old men, Quantrell survivors, met recently in Kansas City, Mo., and organized as the survivors of the Second Missouri cavalry, commanded by Colonel Upton Hays, of which the Quantrell band was a part.

The new organization will have a membership of about fifty. Cole Younger, former bandit chief, was chosen as one of the officers. He said a new organization was necessary because there were so few survivors of the old guerrilla band.

## His Father 140 Years Old.

James Berry, seventy years old, of Bond, Miss., declares he is the youngest of twenty-six children, all of whom are living. His father, he says, is 140 years old, and his mother died at the age of 120. Berry has papers from prominent men from his native county in North Carolina to verify his statements.

Ossining, N. Y., Dec. 18.—The Albany-or-Bust suffragettes resumed their journey this morning. They arrived here yesterday afternoon at 4 o'clock after a tramp of eleven miles along the Albany post road from Irvington-on-the-Hudson and environs, where they put up Monday night. Five of the dauntless twenty-six who started the trip are left and each one of the survivors swears by every blister on her weary feet that she will stick to the bitter end.

## AN ARMY OF LAWYERS TO SUPPORT MORGAN

Financier Called In Money Trust Inquiry.

Washington, Dec. 18.—Accompanied by several of his partners and a small army of lawyers, J. P. Morgan has arrived in Washington to testify before the Pujo investigating commission of the house. Mr. Morgan will not be called to the witness stand until a basis has been established by the committee, through expert testimony, for questioning him in regard to the concentration of banking resources in New York city.

Mr. Morgan's appearance before the so-called money trust committee promises to be more belligerent than his appearance before the campaign contribution committee. That is the construction that is being placed upon the circumstance that Mr. Morgan is accompanied to Washington this time by a large corps of lawyers. Before the Clapp committee Mr. Morgan was not represented by counsel.

A large part of yesterday's hearing was taken up with Mr. Untermyer's effort to show that Wall street speculation in periods of money stringency sapped the banking resources of the country when they were greatly needed by the commercial interests and to move the nation's crops. It has long been the cry of the people in the west that Wall street, by offering high interest rates, is able to drain money from that part of the country, and the figures presented by Mr. Untermyer seemed to afford some justification for this complaint.

## TO TALK IT OVER

Mr. Wilson and Mr. Bryan Will Have Conference in New York.

New York, Dec. 18.—President Elect Wilson and Colonel W. J. Bryan are to confer on Friday or Saturday on many subjects which may affect the coming administration.

Colonel Bryan is coming to town to attend the dinner to be given by many notable Democrats to Governor Elect Sulzer at the Hotel Astor Saturday evening. The president elect and Colonel Bryan are to speak at the dinner and Senator J. A. O'Gorman is to preside. Either before the dinner or immediately after it Wilson and Bryan are to get together and discuss politics and patronage.

## NEW HYDROPLANE SHIP.

Professor Bell Announces Invention That May Break Cross Ocean Record.

Professor Alexander Graham Bell announces a remarkable hydroplane invention that is likely to have a wide and important significance. The credit of the invention, he states, goes to Fred Baldwin, who has charge of the Bell laboratory.

"We have evolved what we call a hydrodrome," said Professor Bell. "I believe it will have a revolutionary effect on methods of water propulsion. The boat is driven by an aerial propeller and rises only about one foot and a half above the water. It is supported by hydrosurfaces like knife blades arranged in three ladder-like forms under the keel of the vessel. These hydrosurfaces differ from the known hydrosurfaces in the fact that they are not flat.

"Driven by a seventy horsepower engine, this boat has attained the speed of fifty miles an hour, while ordinary hydroplanes, with engines many times as powerful, can only travel, at their highest speed, at about thirty-five miles an hour. The boat weighs 1,300 pounds and carries two men. When it gets under way the boat rises out of the water and, supported by the knife planes dipping into the sea, travels easily and swiftly.

"This new boat of ours operates just as well in rough weather as in good. There is no motion and no spray. It is easy to imagine what changes will take place if this invention proves applicable to ocean travel.

"We will be crossing the Atlantic in record time. The hydrodrome is christened 'Jonah,' and it has a remarkable future before it."

## RICE, "KID" OF THE CORPS.

New British Envoy to Washington Is Youngest Ambassador.

Sir Cecil Spring-Rice, who succeeds James Bryce as British ambassador at Washington, is the youngest member of the diplomatic body to hold that grade. He was born in 1859 and is one year younger than Sir Gerald Lowther, British ambassador for Turkey, whose American wife is working so heroically night and day for the wounded and starving in Constantinople.

Sir Cecil is no stranger to Washington, as he was there some years ago as secretary. He is a great friend of Lord Rosebery, who predicted a great career for him. Sir Cecil married in 1904 the daughter of Sir Frank Lascelles, then British ambassador at Berlin. He has a thorough knowledge of Persian, among other languages, and

has done service in Teheran, Tokyo, St. Petersburg, Egypt and Brussels.

## TO EMULATE LIVINGSTONE.

C. T. Studd, Noted Cricketer, Calls University Men to Mission Work.

C. T. Studd, who a few years ago was among the most popular cricketers in England, is filled with the inspiration of Livingstone, to go to work in the comparatively unknown parts of North Africa.

In speaking at the Missionary society demonstration he told how he had appealed to the men at Cambridge university to go out with him as pioneer missionaries and plant the Christian standard in the southeastern Sudan.

Fifteen responded, and three will go out with Studd in the early part of the coming year. Mr. Studd said that ever since the British held the Sudan there had been the most wicked barbarism practiced, but in out of the way places and without the knowledge of the British authorities.

## OLD AGE DEFERRED

Echo From the Medico-Legal Society.

A few generations back a man at 50 was considered old, gray-bearded, and waiting for death. Note the change today; at a meeting of the Medico-Legal society it was stated that a man of 50 ought to have forty good years ahead of him and, thus at ninety be in the fulness of maturity.

What if you have seen sixty, or even seventy birthdays—temperate habits, fresh air and exercise, with a simple diet and a sufficient amount of sleep will guard your health.

If perchance, your circulation is poor, if you become run down—weak and no appetite—nothing in the world will tone up those tired back-sliding organs—enrich the blood and create strength so quickly as our delicious cod liver and iron tonic Vinol.

We ask every feeble, discouraged old person in this vicinity to try Vinol on our agreement to return their money if it fails to give satisfaction. F. B. Johnson and Co., druggists, Rushville, Ind. (Advertisement.)

The Rexall Store

The Rexall Store

taken at the time he was in the last two weeks.

"The defendant, Butler, when he went on the stand, swore to what he knew was not the truth. He swore to one thing one time and one thing another. Then there has been a great deal of this attempting to explain letters that are not explainable, a great deal of swearing to things as explanations that clearly are not the truth."

Judge Anderson fixed four days for the government and four days for the defense as the time to be allowed for argument before the jury.

There was genuine surprise late yesterday afternoon when the defense in the dynamite trial suddenly closed its evidence without calling nine of the principal defendants to the stand. These men are among those who are said to have had the most significant correspondence with Ryan and McNamara or were declared to have been the most active in the different steps of the alleged conspiracy.

For instance, Tveitmo, Clancy and Munsey, who were said to have been active in hiding J. B. McNamara after he blew up the Los Angeles Times building and then got him out of California, and also were said to have assisted in speeding Mrs. Caplan out of the state to prevent her from being a witness against the Times murderers, were not called to stand. Webb of New York was another who did not go on the stand. It was he who, McManibal said, arranged for the Boston opera house and Hoboken jobs and who paid the dynamite \$50 which, he said, Mike Young of Dayton had sent him, thinking that McManibal would go first to New York and then to Boston. Hockin was another who did not testify, but this was expected, as his record was so plain his testimony would have injured all the defendants.

Just before court adjourned for the day the district attorney moved that the bond of John T. Butler of Buffalo, first vice president of the ironworkers' organization, be increased. He said that Butler had stated in the courtroom that he wished to God he had stayed in Quebec, as he knew the crime was not extraditable, and for the court's protection the bond ought to be increased. Judge Anderson increased Butler's bond to \$15,000, and said: "This man swore to what he knew was untrue. He made many conflicting statements, and I believe he committed wilful perjury. I have been on the bench and about courtrooms for thirty-four years, and I never heard such malicious perjury as has been committed in this case." It was then that Butler was sent to jail.

Butler was the principal witness of the day. He flatly denied that any money had been set aside "for organization purposes" and not accounted for afterward by McNamara.

### MOONSHINER A MECHANIC.

Ingenious Way in Which He Made a Splendid "Worm."

The copper "worm" of a moonshiner's still was use in evidence in the court of Judge John Elmore, United States commissioner, at Montgomery, Ala. It was a splendid piece of workmanship and was made from very thick copper, and it did not have a seam in it.

Alpheus McGowen of Coosa county, who was being tried for "moonshining," told the judge he made the "worm." When he had beaten and worked the copper into a long gas pipe shape he filled it with white sand and crooked both ends. The tube was then carried to a tree stump and wound about it until the proper shape was obtained. The sand prevented the copper tube from flattening under pressure.

### MADE "HINGES" IN BOY'S JAWS

Surgeons Cut Through Bone and Model Artificial Joints.

A remarkable operation which has resulted successfully was recently performed in Baltimore on a fourteen-year-old boy who since birth had been unable to move his jaws. His parents found it necessary to feed him through a tube, for his jaw bones were stiff, with no normal "hinges."

The surgeon cut through the mass of bone where the joint should have been and modeled upon the sections actual joints such as nature normally provided. The child has left the hospital and now can move his jaws as normal children of his age.

## FALSE WITNESS GETS A SCORING

Judge Anderson Grills Iron Workers' Vice President.

### JOHN T. BUTLER SENT TO JAIL

"For My Part," Says the Court, "I Have Never Seen Such a Display of Perjury as Has Taken Place in This Courtroom in the Last Two Weeks."—Eight Days Apportioned to Argument in Dynamiters' Trial.

Indianapolis, Dec. 18.—The bond of John T. Butler, first vice president of the iron workers, was increased to \$15,000, and Butler was put in jail in default of bond; Clarence E. Dowd of Rochester, N. Y., general organizer of the machinists' union, was discharged by the court, and motions to discharge all other defendants except Dowd were overruled by Judge Anderson, in the dynamite case.

Judge Anderson, following United States Attorney Miller's denunciation of Butler as a perjurer, shot out a few remarks straight from the shoulder concerning the perjury, which he said had been committed within the two weeks the defense has been having its inning.

"I do not like to prejudice anyone before the jury," said Judge Anderson, "but the jury is not here now. Butler took the stand today and swore to what was not true. Everybody in the courtroom knew that he was committing wilful perjury. Mr. Marshal, take the custody of Butler."

"Now there is another question here. The people in this country must find out that there is a law in this country and that it must be obeyed. There must be a stop to perjury. If the shoe fits anyone in this room, let him wear that shoe. For my part I have never seen such a display of perjury as has

## The Fact That We Are Selling the Most of the Storm Buggies This Year

is easily accounted for. It is no trouble to sell a buggy if you have the best buggy, the best price, and the best terms. We claim these three points of advantage but are willing to leave the matter to you to decide whether or not our claim is a just one. We believe that you will agree with us on this decision if you will take the time to come in and see our stock of storm buggies. We also believe that if we can convince you of the fact that we can give you the best buggy at the best price and on the best terms, and you want a Storm Buggy that we can sell you what you want. Remember our buggies are different in style as well as quality and if you buy one of them, you will be satisfied with it.

### A Queer Excuse.

The directors of the Marion club in Indianapolis, the only real Republican club in that city, voted last night to expel nine members who have gone Bull Moose and who have been active in the leadership of the new party. Albert J. Beveridge, who was the party's candidate for governor, headed the list.

Agitation along this line has been public for some time. It is understood the nine leaders who were under fire were given the privilege to resign, but they refused, notwithstanding the fact that the constitution of the club provides that members shall be Republicans.

But since the directors of the club have let it be known, by a vote of eight to two, that the Bull Moosers are not wanted because they have left the Republican party, the authoritative action of the club is being contested.

The club is primarily a Republican organization. It remains so regardless of what the Bull Moosers within or without the club believe. The new party men who were ousted have an argument for wishing to retain their membership, which is about as thin and groundless as was their "excuse" for leaving the Republican party.

They maintain, mind you, that the contract implied in the Republicanism clause of the Marion club constitution was misapplied when President Taft was fraudulently nominated at Chicago, according to their declaration, whether or not they believe it down in their hearts, and that they were not bound by the clause.

It is a far-fung excuse. Too, it's a far cry from the Marion club constitution to the Republican national convention. It is characteristic of the leaders of this party to wholly disregard the views or desires of others, and to attempt to shape the course of events according to their alleged beliefs. In this instance, there is more than two-thirds of the membership of two thousand which

does not believe any fraud was used in nominating Taft. We would hardly class them reasonable men, granted they were Bull Moosers, should they want to steal the Marion club on such a baseless and groundless pretext.

When Gov. Cole Blease merely said "hellity-dam" the other day, there was general regret that he should use such pussy-fied language.

Gov. Wilson having received 40,000 letters in five months, has probably given up waiting at the post-office until the mail is up.

Don't lose your nerve; everything will come out in wash. A Texas washerwoman was willed a hundred thousand dollars the other day by one of her customers.

### Eating Oranges.

A rural philosopher once remarked, that the only satisfactory way to eat an orange is to go out on the barn floor where there are no carpets, remove all your clothes, and proceed to enjoy the juicy golden sphere.

The annual ripening of the crop of concentrated sunshine suggests that authorities on etiquette are not fully agreed as to what is the strictly orthodox way to capture its aromatic nectar.

It is highly probable, that if you should write to the editor of the Ladies' Home Journal, he would tell you to use the pointed spoon commonly found on the hotel table. Still, the juices of the yellow ball are so tightly held together, that the least mis-play of spoon or the slightest over-use of force sends the yellow fluid spurting out on the best table cover.

This does not promote the movement for universal peace.

Much could be said in favor of the good old fashioned way of removing the skin and dividing the fruit into the segments created by nature for just this purpose. The purist in manners may say that such democratic handling of foods by the fingers is more suited to the kitchen than the dining room. Still the practical consideration remains that thereby you retain every drop of this precious ambrosia.

## AMUSEMENTS

"The Playthings of Fate" is the title of a two reel feature Milano picture at the Palace tonight. The picture tells a story in which love plays strong part shielding a woman's honor and a crime.

The Erie theater will have the usual change of program tonight. "The Renegade" is the title of the first picture and the other is "The Retreat from Eden." It is a thrilling western picture.

The Princess offers a Lubin drama "The Players" for the first picture tonight. It is a story of the stage and features Orma Hawley. The other is a Kalem comedy. "The Belle of the Beach," Friday night a feature program with Maurice Costello and Florence Turner will be shown.

On Thursday, Friday and Saturday, December 19, 20 and 21st, Indianapolis is to have at English's theater a musical comedy the author of which is a native of that city. Theodore M. Stempel, whose father is the vice-president of the Fletcher-American National Bank, is the young man who wrote the book and Jos. E. Howard, the well known producer, wrote the music and is producing the piece. It is said that Mr. Stempel has been interested in writing stories and plays ever since his early college days when, as a student at the University of Wisconsin, in Madison, he won several contests. Mr. Howard believes that "Frivolous Geraldine" is the most promising production he has ever made, and Indianapolis will undoubtedly greet its fellow townsman with open arms. Immediately following the Indianapolis engagement the piece will go to Chicago for an indefinite stay.

## SOCIETY NEWS

Mrs. Minnie Abercrombie entertained the Monday Circle this week.

The guest day meeting of the D. A. R., which was to have been held with Mrs. Will Jay tomorrow afternoon, has been postponed indefinitely.

Mr. and Mrs. Bert Trabue entertained members of the United Presbyterian church congregation at their home at the corner of Seventh and Perkins street last evening in honor of Mr. and Mrs. Will Cherry who will leave Friday for their new home in Wisconsin.

Miss Hazel Harrison entertained a number of young people last evening in honor of her cousin, Herschell Miller, of Rushville, says the Greenfield Reporter. Games were the feature of the evening. Those present were Misses Margaret Floyd, Mabel Toles, Audrey and Freda Miller, Pearl Hendren, Grace Gambrel, Ione Fischer and Messrs. Richard Cooper, Frank and Clyde Hilligoss, Oak Stevens, Oak Harlan and Lester Foster. Refreshments of ice cream, cake and candy were served.

## MORE LETTERS ARE PRODUCED

**Mr. Hearst Appears Before Senate Committee.**

**TELLS WHERE HE GOT THEM**

For First Time Newspaper Publisher Reveals Source of Standard Oil Letter Files in His Possession, Saying That They Came to Him From an Old Employee of His Paper, but He Didn't Know Where Latter Got Them.

Washington, Dec. 18.—The senate committee investigating campaign contributions and expenditures called William R. Hearst as a witness. He produced six letters that have not heretofore been published, purporting to have passed between John D. Archbold and Senator Penrose of Pennsylvania, former Senator Foraker of Ohio and ex-Congressman Sibley of Pennsylvania. Mr. Hearst's appearance as a witness led to a commotion when Senator Oliver of Pennsylvania insisted that Mr. Hearst should be required to produce before the committee all of the Archbold letters in his custody that have not been brought out heretofore, and Mr. Hearst insisted that he had produced all of such correspondence that had any relation to the present hearing.

It finally was agreed that the jurisdiction of the committee gave it the power to demand the production before it of any correspondence passing between the Standard Oil officers and men in congress, and Mr. Hearst will be required to lay all the letters before the committee to be considered in executive session. It will then be determined just which of them will be received in evidence.

Mr. Hearst told the committee that he knew nothing about the circumstances under which the letters were written and that the correspondence must speak for itself. Ex-Senator Foraker is expected to give a detailed explanation of all the correspondence that passed between John D. Archbold and himself when he takes the stand today. He has overhauled his letter files and probably will produce much additional correspondence that may clear up some matters heretofore obscure.

Mr. Hearst was questioned by the committee as to how he came in possession of the letters. He admitted that he had received photograph copies from John Eddy, who for many years was connected with the Hearst newspapers, but who now is in London. The publisher told the committee he did not know where Mr. Eddy got them, but expressed the opinion that Eddy would be glad to come before the committee and give the information. The publisher explained that Eddy was the author of the articles that appeared in Hearst's Magazine in connection with the publication of the letters.

Of the six new letters laid before the committee, one was from Senator Penrose to Archbold, dated Dec. 4, 1903, at Philadelphia, and read in part as follows:

"I have wired Senator Aldrich to make an appointment with him to discuss the matter referred to in your letter."

The telegram also expressed the willingness of Senator Penrose to meet Mr. Archbold at any time or place he might indicate. The other correspondence related to the proposed loan to Foraker by Archbold, and Mr. Hearst explained that he had understood that this money was returned by Foraker to Archbold very promptly and that he had so stated in his speeches.

The last letter produced purported to have been sent by Archbold to former Representative Sibley of Pennsylvania and inclosed a certificate of deposit for \$5,000, "sent you at the request of Mr. Griscom, the purpose of which you no doubt understood with him."

There was one other witness before the committee, John L. Kennedy of Washington, who was a member of the industrial committee at the time Senator Penrose served on the committee. The testimony of this witness tended to establish the fact that Senator Penrose at no time sought to influence the work of the commission in favor of the Standard Oil or any other interests, and the witness declared that Senator Penrose took less interest in the work of the committee than any other member.

**Death From Strange Cause.**  
Shelbyville, Ind., Dec. 18.—Roy Stewart, aged ten, is dead at his home in Marion township, having been shot in the right breast in a mysterious manner. There was a shotgun in the house, but it had not been disturbed. It is thought the child found a shell from a shotgun, placed it on the stove, near which he had been playing, and that it exploded.

**Yeggmen Were Disappointed.**  
Newberry, Ind., Dec. 18.—Yeggmen tried to blow the door of the vault in the Citizens bank of Newberry, but were frightened away after failing on the first attempt. The nitroglycerin that they placed in a hole in the door was not strong enough to break open the safe. Becoming frightened the men fled, stealing a horse and buggy belonging to J. P. Wall to make a quick retreat.

Tokio, Dec. 18.—Prince Taro Katsura has accepted the premiership of Japan and commenced to form a cabinet. Announcement of appointees is expected Friday.

## FURTHER DETAILS OF GOTHAM VICE CRAFT

**The Deeper the Probe Goes the Worse the Stench.**

New York, Dec. 18.—According to information given out at police headquarters, nine policemen will be brought up for trial Friday in connection with the stories told by Mrs. Mary Goode and others regarding the vice graft in New York. Captains Corcoran and Zimmerman already have been tried and decisions in their cases are still pending. They add two more to the total, making it eleven in all.

Two more keepers of questionable resorts were examined by District Attorney Whitman in person, and several other persons of the same category were examined by representatives of the district attorney's office in other parts of the town. The witnesses were not averse to telling of alleged protection payments, but the prosecutor found the same trouble that heretofore he has encountered—that the further he goes the wider becomes the inquiry. Instead of additional testimony strengthening the evidence against the same collectors, the work of the district attorney's office so far has served rather to produce the names of additional collectors. This outcome naturally delays the presentation of the matter to the grand jury.

## EUROPE'S PEACE STILL IN DOUBT

**Negotiations Marked By Doubt and Anxiety.**

**MILITARY SPIRIT IS GROWING**

Not Only Are Military Preparations in Austria Being Pushed Forward With Much Activity, but in Constantinople the Warlike Feeling Constantly Is Growing and Rumors of Intrigue and Plot Are Heard.

London, Dec. 18.—At the very outset the delegates to the peace conference found themselves faced with a difficulty which necessitated the taking of an adjournment for two days in order to allow the Turkish plenipotentiaries to obtain fresh instructions.

This difficulty was not unexpected, as it has been known for some days that the Turkish representatives did not admit that they were on terms of negotiation with the Greeks owing to the refusal of the Greek government to sign the armistice on which alone the peace parleys are based. Accordingly, when the credentials of the Ottoman delegates were produced it was found that they were only authorized to treat with the Bulgarians, Serbians and Montenegrins. The difficulty was discussed most amicably. The Turks were reminded that they negotiated peace with Italy while they were still at war in Tripoli. It was also pointed out that M. Daneff, the leading Bulgarian delegate, when he was signing the armistice and arranging with the Turks for the peace conference, stated that the Greeks would not consent to a cessation of hostilities. The representatives of the three Balkan states made it clear beyond the possibility of any doubt that they would not enter into negotiations without the Greeks being present.

After a short friendly discussion along these lines an agreement was reached for an adjournment until 4 o'clock Thursday afternoon, in order to give the Turks an opportunity to receive "supplementary instructions." The question of the Greeks signing the armistice now was not raised at all.

While the position of the Turks is admitted to be a logical one in that no overtures for peace have been made to or by Greece and the armistice signed by the Turks provides for negotiations with three belligerents only, it is generally believed that the difficulty will be overcome and that the conference will settle down to serious business on Thursday.

The atmosphere of the conference was charged with doubt and anxiety, as the news from the continent was of a less cheerful tone. Rumors of the constant development of the military spirit at Constantinople and intrigues for the overthrow of the government and its replacement with a military dictatorship, together with reports that Austrian military preparations on a great scale were being pushed forward, are regarded as a reminder that the European situation still holds a dangerous menace.

mind that the European situation still holds a dangerous menace.

## NOTABLE ALBUM

Contains Names of Nearly a Thousand of Earth's Great Personages.

Washington, Dec. 18.—Louis Barth of Arad, Hungary, an autograph collector, called at the White House and had President Taft sign his name in the most wonderful autograph album the president had ever seen. The president's name was the 995th name in the collection, which includes the autographs of the chief rulers of the earth. Barth said he had traveled many thousand miles gathering the names of famous men. He began his collection about eight years ago and has spent about \$70,000 in the work. He added that his collection of autographs was not for sale at any price, although he had been offered \$300,000 for it. Many near-great persons, he says, have offered him sums aggregating thousands for an opportunity to add their names to the collection.

## A Boy and a Gun.

Shelbyville, Ind., Dec. 18.—Roy Stewart, eleven years old, son of John Stewart, a farmer, was accidentally killed at his home near here when a charge from a shotgun tore its way through his chest. Several members of the family were in the room at the time the accident occurred, but none of them was aware the little fellow was playing with the gun.

## Chiefs of Party Indicted.

Knoxville, Tenn., Dec. 18.—J. S. Beasley, chairman, and George T. Renfro, secretary of the Republican state campaign committee, have been indicted by the federal grand jury on the charge of violation of the civil service act. The indictment is the result of a letter alleged to have been circulated in the federal building soliciting funds for campaigning.

er who is ill and who he had not seen for fifteen years.

Dr. Parsons thought the chief should have asked him permission to leave since he is chairman of the police committee. It developed that the chief had seen every member of the council except Dr. Parsons. A motion was finally passed paying Hall as a special policeman and allowed the police chief his regular salary.

City Attorney H. E. Barrett was given power to act in the proposed trade of lots between the city and the Pennsylvania railroad. The deal has been hanging fire for some time.

The city clerk was authorized to borrow six hundred dollars from the Farmers Trust Company to pay the regular bills coming before the council.

The report of A. T. Mahin shows that \$12,344.91 has been spent in improving the water system. This includes the digging of all wells—failures and all—as well as the price of the pumps and other paraphernalia.

Dr. Parsons, who has spent more time in improving the water system, supplement the report explaining that nine wells had been dug and paid for but that only six of them were any good. He said that the well digger had dug several dry holes at his own expense and received no money from the city.

The report of Supt. Mahin follows: Acting under the advice and direction of the finance committee, I have prepared and submitted to your honorable body a detailed report of the expenses incurred during the year in your search for water, together with the cost of pipe lines, electric lines, pump houses, and pumping machinery and equipments installed to pump the water after finding a sufficiency to justify the expense of piping it into the city mains.

The special water committee has caused wells to be drilled in every part of the city limits, as well as in the adjacent county around the city—but only succeeded in getting a supply adequate from one well in the west end (Crowley well) and five wells in the east end, including the wells in the Jones territory and Keating farm, of which but three of them have up to date been connected with the city mains. The total expenditure made by this committee for drilling wells to date, including all dry holes, amounts to \$2271.50. The cost of laying mains, building electric lines, and material for construction of pipe lines and electric lines to reach and connect these wells with the city mains including well houses has reached the total cost of \$4589.75. The pay roll for labor paid to do this work and build the lines, lay the pipe lines and erect the well houses and electric pole lines foots up \$1407.75. The total cost of the electric pumps purchased by you and now installed are summed up as follows:

Two Hill pumps installed in west end ..... \$ 620 75  
 One Keystone pump installed at foot of Julian street 1182 00  
 Two Keystone pumps installed in Jones territory, but not paid for..... 2182 00  
 Making a grand total as

cost of pumps..... 3984 75  
 Summing up we find that the total cost to date that has been authorized by you in your search for water and connecting up the wells to the city mains can be itemized as follows:

For digging wells.....\$2271 50  
 For pipes and Elect. lines... 4589 97  
 For pumps purchased..... 3984 75  
 For labor on construction... 1407 75

Total .....\$12253 97  
 Additional items filed with city council..... 90 94  
 Total cost water extension for new supply.....\$12344 91

# MANILLA DROPS GAME TO LOCALS

Rushville Independents Outplay Visitors and Win by Score of 42 to 29.

## LARGE CROWD SEES CONTEST

Burtch is Real Star, Making Eleven Field Goals—Only is Score Close.

The much talked of Manilla basketball team went down in defeat last night before the local Independents by a score of 42 to 29. Manilla was expected to put up a better game than they did but as it was the Rushville team was an easy winner. The game was very rough, many foul being called, but the roughness only tended to keep the crowd on edge.

Manilla has had things about its own way in basketball in this section with Independent teams during the past three years but the game last night showed that the locals are the real class in this game. The Rushville team played together and the team work soon told on Manilla. The passing of the locals was good and the visitors were kept guessing from start to finish. At only one time did Manilla have a show and then it was not great. This was at the beginning of the second half. Rushville was slow to get started in this period and Manilla gradually got within striking distance. Before Rushville could recover from the slump Manilla was within seven points of tying up score. At this time Rushville led by the score of 28 to 21.

Rushville was the first to score and Manilla came right back with a marker. For several minutes the score was very close but the locals gradually increased their lead and the half ended 21 to 12. Rushville made goals

from all angles and also missed some by narrow margins.

Burtch, for Rushville was the star of the contest. Burtch made eleven field goals and played in really wonderful form. His playing was of the highest order and he was the one big factor in the defeat of Manilla. The balance of the team behind Burtch played good ball and the Rushville team is capable of playing the best teams in the State. Fox and Inlow were the best for Manilla. The game was for the benefit of the First Presbyterian church choir and one of the largest crowds of the season was present. The score and summary:

Rushville (42)	Manilla (29)
Position.	
Gunning	Fox
Petry	Inlow
Burtch	Gardner
Buell	Hilligoss
Carroll	Halterman
Guard.	

Field goals—Gunning 4, Burtch 11, Petry 2, Fox 5, Inlow 2, Gardner, Hilligoss 3, Halterman. Foul goals—Gunning 8, Inlow 5. Referee Ferguson.

## VERY LITTLE CORN SPOILED

Last Year 50 Per Cent. of Crop Was in The Fields.

About 5 per cent. of the corn crop is still in the fields, while this time last year 50 per cent. of the crop was ungathered. Hard frosts dried out the corn to such an extent that some is lost by shelling out in handling. The market price is lower now than it has been for years.

## NORRIS RESIGNS AS COUNCILMAN

Special Meeting Will be Held Next  
Monday Night to Elect a  
Successor.

PROPERTY OWNERS KICK

Supt. A. T. Mahin's Report Shows  
\$12,344.91 Has Been Spent in  
Hunt For Water.

O. C. Norris, state representative, tendered his resignation to the city council last night and the first authentic report of the cost of the "still" hunt for water that has been carried on here for many months was made in an itemized financial statement prepared, at the request of the finance committee of the city council, and submitted by A. T. Mahin, superintendent of the city water and light plant.

O. C. Norris' successor will be named at a special meeting of the city council next Monday night. The law provides a vacancy shall be filled by the council at a special meeting not less than two days or more than fifteen days from the time the seat is declared vacant. Norris was a councilman-at-large.

It is said that two rather prominent Democrats in Rushville are in a receptive mood. They have made it known to the Republican members of the council that they would take the job if it were thrust upon them, but the Democratic members of the council have not yet expressed themselves either way. It is said, however, that they have practically agreed on one man as the result of a recent agreement.

The members of the council bade farewell to Councilman Norris. In behalf of the council Mayor Black expressed the regret that was felt with the passing of Norris to higher legislative bodies and greater tasks. He said the associations in the council chambers had been pleasant and that it was with sadness, in a measure, that the council looked forward to council meetings without the affable Mr. Norris present. The retiring councilman said he appreciated the kind things said about him and that, while the path had been stormy at some times, he felt that the council had accomplished something. He enumerated them.

After considerable dickering Thomas Geraghty, Sr., was given the contract for establishing a grade in East Ninth street near Benjamin. He is to take the surplus in Ninth street and fill a low place in Benjamin. He agreed to take the contract at \$135, the city to pay for alleys and crossings to the sum of \$46.20 and get the remainder from the property owners as best he could.

Jesse Wolung, Claire Johnson and G. P. McCarty, residents of George street, complained to the council about the kind of gravel that is being used to repair the street. They declared that it was 75 per cent. sand and the rest dirt and that it would not pack but in a short time make a mud hole. The contractor was at the meeting. He said he had ordered the gravel taken off the street and he ordered some from Shelbyville. Councilman Moore said he had inspected the gravel and that it was of inferior grade.

Councilman Parsons raised a question about paying Wilbur Hall for two weeks' police service. He wanted to know if the chief of police should not pay a man working while he was on a visit. Councilman Norris said Chief McAllister had asked him for a vacation to visit his mother.

## TRAIN BACKS INTO I. & C. CAR

Passengers Have Lucky Escape in  
Greensburg Accident.

A Big Four freight train backed into an I. & C. car in Greensburg Monday night and although the rear end of the car was demolished, the four passengers escaped injury. The freight train was backing around the "Y" and the motorman failed to see the train until he was on the track. He tried to get the car across but the train struck the rear end. The vestibule was torn off and the car derailed. The passengers attribute their safety to the fact that they were in the front end of the car.

## JOINT MEETING HERE THURSDAY

Commissioners of Rush, Shelby and  
Hancock Counties Will Hold  
Brief Road Session.

SUPPLIES CONTRACT IS LET

The county commissioners adjourned late yesterday afternoon sine die but they will meet here in joint session Thursday with the boards of Shelby and Hancock counties to agree to an extension of time for completing the Murray Moore road which passes through the three counties.

Before adjourning yesterday the commissioners granted the contract for supplies for the year to the T. R. Woodburn Printing Company of Terre Haute. Theirs was the only bid submitted although four other concerns applied for specifications. The board yesterday also approved the bonds of Voorhees Cavitt, sheriff-elect, and A. R. Holden, auditor-elect.

The commissioners have awarded the contract for jail and court house supplies for the coming year. The Manzy Company got the contract for jail supplies and H. G. Hackman for the court house. Both bid on each. The Mahin Electric Company was granted the contract for electrical supplies and the city was given the contract for supplying the court house and jail with light and water at the old price, \$1,100 a year. William Dagler got the contract for furnishing coal at \$1,090. Reynolds & Clifford's bid was \$8 higher.

## NOBLE TOWNSHIP FORGES TO FRONT

Second Allotment of Red Cross  
Seals Sent to the Vice-Pres-  
ident, Mrs. Mary Wellman.

LOUISE KENNER SELLS 300

Rushville Workers Are Urged to  
Emulate Noble Township Boost-  
ers—Incident of Friday, 13th.

It is probable that Miss Louise Kenner of Noble township holds the record for the sale of Red Cross Christmas seals in Rush county. Up to yesterday she had disposed of three hundred seals and was urging that more be sent her immediately so that she would not lose any time between now and Christmas.

Noble township is forging ahead of all out townships and may give the city of Rushville a merry go for first place. Mrs. May Wellman, the Noble township vice-president, has sold her first allotment and has received a second consignment. She declares that they too will be sold.

The territory on which the Noble township workers have to draw is much smaller than Rushville's yet they are showing a determination and spirit which the officers of the county society hope will be emulated by the workers in the city.

It is urged that no one send a piece of mail these days without a Red Cross Christmas seal. It is not absolutely necessary to place them on mailable matter. They may be used on anything, but especially express the spirit of the season when the little green stamp, embellished with holly and a picture of Santa Claus, is stuck to a Christmas bundle.

The Tri Kappas will have the seals on sale at the postoffice every day until Christmas.

Practically every merchant in Rushville is selling them and many individuals are attempting to sell them so that it will require but little effort to buy them.

On Friday evening, December 13th, a party of men sat at dinner at the University Club in Indianapolis. They were planning how to extend the sale of Red Cross Christmas seals, for all of them were deeply interested in the advancement of the fight against tuberculosis. Somewhat of merriment had been made at the expense of the hoodoo date—Friday the thirteenth, and it was discovered that the man who arranged the dinner invited just thirteen guests. One of the doctors present had drawn sent No. 13 at table.

"Gentlemen, this is more than a coincidence," said this doctor, after the jokes had passed around among those seated. "And if you will indulge me in a bit of family history I will tell you why. Tonight is Friday the thirteenth. There are thirteen of us at this table. I am No. 13. And just thirty-one years ago tonight, which date was also Friday the thirteenth, my father died of tuberculosis. At his bedside I pledged myself to devote my life to fighting the dread disease which had robbed me of a father just when I most needed his care. Gentlemen, I have kept the pledge. I have seen the dread disease rob many another boy and girl of father and mother. Each incident has renewed my determination, and I shall still be fighting this terrible plague when the grim reaper calls me from the fray."

### G. A. R. ELECTION.

The G. A. R. will hold its annual election of officers next Wednesday, Christmas Day, in the sheriff's office in the court house. A large attendance is desired.

## MERCURY WILL DROP TONIGHT

Weather Man Predicts Colder Weath-  
er Will Follow on Heels of  
Snowfall Today.

IT COMES IN UNANNOUNCED

Merchants Are Pleased Because They  
Believe Thoughts Will be Turn-  
ed to Holidays.

Merchants beamed, little folks were tickled clean through their skin and fond parents were delighted to day when the snow began to fall in large white soft flakes and the scenery hereabout began to take on a real aspect of winter, the first weather sign that the holiday season is approaching.

It was so warm today that more than half the snow that fell melted shortly after it touched the ground. The flakes came in such large numbers after a while, however, that about an inch fall was recorded.

The snow came unannounced. It virtually slipped up on the weather man. And it may continue to fall all night. The prognosticator declares that the temperature is going to fall tonight and that the tumble will be accompanied by high brisk winds from the northwest.

Although business men who are making appeals for Christmas trade have not been disappointed with the business thus far in the season they were pleased when real Christmas weather appeared today. They believed that the change will have an effect on buying and that more people will realize that Christmas is only a week distant.

The time to buy that Christmas present is now. During the last two or three days before Christmas the rush will be so great it will be unpleasant for both customers and clerks, so taking time by the forelock will be doing a good act all the way around.

More and more the people in this vicinity are coming to realize that it pays to trade in Rushville. The stores are getting better here each year and the service improves with the stock. It is safe to say that nowhere in Indiana will there be found in a city of this size with anything like the good stores found here. The larger cities have them, but they do not grow in towns the size of this. All this should create a feeling of home pride and it ought to be a genuine pleasure to patronize home business men when by so doing the general reputation of the city is given just that much more boost.

### COUNTY COUNCIL MEETS.

The county council will meet in special session Friday to make deficient appropriations and clean up the business of the year. It will be the last meeting of the year. It was stated in the auditor's office that nothing of any great importance would come before the council.

### REMAINS BROUGHT HERE.

Dies Suddenly in Connors-  
ville.

KNOWN TO LOCAL CARRIERS

Benjamin C. Ball, age thirty-seven years, died suddenly in Connorsville while driving home to supper Monday evening in the buggy with which he delivery mail in the city of Connorsville. His death was due to valvular heart trouble. Mr. Ball's horse stopped in front of a house and a pedestrian discovered that he was dead.

Mr. Ball has a nephew of I. L. Clifford, a local rural mail carrier. He was well known to the city letter carriers here especially and was held in high esteem by them. The Connorsville branch entertained the local carriers once several months ago, and at that time the Rushville carriers became intimately acquainted with Mr. Ball. The news of his death cast a gloom over the local postoffice and kind tributes were paid the deceased carried at the Rushville office.

Sandusky Lad Leads up on Bad  
Booze and Then Attacks His

IS STABBED IN THE BREAST

Mort Chandler, aged nineteen years, came to town Monday and in the evening returned to his home in Sandusky, says the Gronesburg Review. While here he became the possessor of a quart of bad whiskey, filled his hide with it, and when he landed at the parental domicile he was loaded for fair. His father, Ed Chandler, remonstrated with him, and the young man, it is alleged, whipped out a knife and proceeded to make it likely for his ancestor. As a result of the mix-up the elder Chandler has a stab wound in the breast, a cut across the back of his right hand, and is otherwise disfigured. Who sold the young man the liquor is the question that is agitating the people of Sandusky, and they propose to find out if they can.

The Daily Republican Santa Claus fund is going to fall far short of last year's fund unless it pulls out of the slump into which it fell today.

There are a hundred or more friends of Santa Claus who must come to the rescue. The fund only gained three dollars today and, as stated yesterday, there will have to be an average of thirteen dollars a day in order to make it the equal of last year's.

The beautiful snow of today will probably turn the thoughts of many people to Christmas. With such a trend they can not but realize what a cheerless day Christmas would be in the homes of many poor unfortunate children in Rushville if the Santa Claus wagon did not visit them and leave them a package of Christmas cheer.

There is every reason to believe from the present data at hand that the number of children to be supplied with packages this year will be larger than last year. In 1911 more children were visited by the Santa Claus wagon than ever in the history of the fund.

The little folks are coming to the aid of Santa Claus valiantly. They have been in the majority in the list of contributors for several days. Their mites help out, only it takes lots of them, and other little folks who look out at the large white snow flakes today and contemplate Santa Claus' arrival on their roof should remember that there are some little folks who can not look with such pleasure toward the arrival of the most gladcome of all seasons in America.

Arrangements were made for the Republican's Santa Claus fund's gifts to be housed in the Maria Toolen room, corner of Main and First streets. All the wrapping and sorting will be done there. Mrs. Owen Kincaid will have charge of the wrapping. The aid of any one is solicited in this work. A great amount of work is entailed in this department and the more who will assist the quicker it will be done and the easier it will be for all concerned.

The contribution of the employees of the Innis-Pearce furniture factory was increased to twelve dollars today. Monday a contribution of \$11.25 was reported, and today seventy-five cents was added to the sum.

MAIL THEM NOW.  
Letters to Santa Claus must reach the Daily Republican office by Friday evening to insure publication. The youngsters have been so diligent in writing to Kris Kingle this year that the Republican has been swamped. All received up to Friday night will be published.

Ossining, N. Y., Dec. 18.—The Albany-or-Bust suffragettes resumed their journey this morning. They arrived here yesterday afternoon at 4 o'clock after a tramp of eleven miles along the Albany post road from Irvington-on-the-Hudson and environs, where they put up Monday night. Five of the dauntless twenty-six who started the trip are left and each one of the survivors swears by every blister on her weary feet that she will stick to the bitter end.

## AN ARMY OF LAWYERS TO SUPPORT MORGAN

Financier Called In Money  
Trust Inquiry.

Washington, Dec. 18.—Accompanied by several of his partners and a small army of lawyers, J. P. Morgan has arrived in Washington to testify before the Pujo investigating commission of the house. Mr. Morgan will not be called to the witness stand until a basis has been established by the committee, through expert testimony, for questioning him in regard to the concentration of banking resources in New York city.

Mr. Morgan's appearance before the so-called money trust committee promises to be more belligerent than his appearance before the campaign contribution committee. That is the construction that is being placed upon the circumstance that Mr. Morgan is accompanied to Washington this time by a large corps of lawyers. Before the Clapp committee Mr. Morgan was not represented by counsel.

A large part of yesterday's hearing was taken up with Mr. Undermyer's effort to show that Wall street speculation in periods of money stringency sapped the banking resources of the country when they were greatly needed by the commercial interests and to move the nation's crops. It has long been the cry of the people in the west that Wall street, by offering high interest rates, is able to drain money from that part of the country, and the figures presented by Mr. Undermyer seemed to afford some justification for this complaint.

### TO TALK IT OVER

Mr. Wilson and Mr. Bryan Will Have  
Conference in New York.

New York, Dec. 18.—President Elect Wilson and Colonel W. J. Bryan are to confer on Friday or Saturday on many subjects which may affect the coming administration.

Colonel Bryan is coming to town to attend the dinner to be given by many notable Democrats to Governor Elect Sulzer at the Hotel Astor Saturday evening. The president elect and Colonel Bryan are to speak at the dinner and Senator J. A. O'Gorman is to preside. Either before the dinner or immediately after it Wilson and Bryan are to get together and discuss politics and patronage.

### NEW HYDROPLANE SHIP.

Professor Bell Announces Invention That May Break Cross Ocean Record. Professor Alexander Graham Bell announces a remarkable hydroplane invention that is likely to have a wide and important significance. The credit of the invention, he states, goes to Fred Baldwin, who has charge of the Bell laboratory.

"We have evolved what we call a hydrodrome," said Professor Bell. "I believe it will have a revolutionary effect on methods of water propulsion. The boat is driven by an aerial propeller and rises only about one foot and a half above the water. It is supported by hydrosurfaces like knife blades arranged in three ladder-like forms under the keel of the vessel. These hydrosurfaces differ from the known hydrosurfaces in the fact that they are not flat.

"Driven by a seventy horsepower engine, this boat has attained the speed of fifty miles an hour, while ordinary hydroplanes, with engines many times as powerful, can only travel, at their highest speed, at about thirty-five miles an hour. The boat weighs 1,300 pounds and carries two men. When it gets under way the boat rises out of the water and, supported by the knife planes dipping into the sea, travels easily and swiftly.

"This new boat of ours operates just as well in rough weather as in good. There is no motion and no spray. It is easy to imagine what changes will take place if this invention proves applicable to ocean travel.

"We will be crossing the Atlantic in record time. The hydrodrome is christened 'Jonah,' and it has a remarkable future before it."

### RICE, "KID" OF THE CORPS.

New British Envoy to Washington is  
Youngest Ambassador.

Sir Cecil Spring-Rice, who succeeds James Bryce as British ambassador at Washington, is the youngest member of the diplomatic body to hold that grade. He was born in 1859 and is one year younger than Sir Gerald Louthier, British ambassador for Turkey, whose American wife is working so heroically night and day for the wounded and starving in Constantinople.

Sir Cecil is no stranger to Washington, as he was there some years ago as secretary. He is a great friend of Lord Rosebery, who predicted a great career for him. Sir Cecil married in 1904 the daughter of Sir Frank Lascelles, then British ambassador at Berlin. He has a thorough knowledge of Persian, among other languages, and

has done service in Teheran, Tokyo, St. Petersburg, Egypt and Brussels.

### TO EMULATE LIVINGSTONE.

C. T. Studd, Noted Cricketer, Calls  
University Men to Mission Work.

C. T. Studd, who a few years ago was among the most popular cricketers in England, is filled with the inspiration of Livingstone, to go to work in the comparatively unknown parts of North Africa.

In speaking at the Missionary society demonstration he told how he had appealed to the men at Cambridge university to go out with him as pioneer missionaries and plant the Christian standard in the southeastern Sudan.

Fifteen responded, and three will go out with Studd in the early part of the coming year. Mr. Studd said that ever since the British held the Sudan there had been the most wicked barbarism practiced, but in out of the way places and without the knowledge of the British authorities.

### OLD AGE DEFERRED

Echo From the Medico-Legal Society.

A few generations back a man at 50 was considered old, gray-bearded, and waiting for death. Note the change today; at a meeting of the Medico-Legal society it was stated that a man of 50 ought to have forty good years ahead of him and, thus at ninety be in the fulness of maturity.

What if you have seen sixty, or even seventy birthdays—temperate habits, fresh air and exercise, with a simple diet and a sufficient amount of sleep will guard your health.

If perchance, your circulation is poor, if you become run down—weak and no appetite—nothing in the world will tone up those tired back-sliding organs—enrich the blood and create strength so quickly as our delicious cod liver and iron tonic Vinol.

We ask every feeble, discouraged old person in this vicinity to try Vinol on our agreement to return their money if it fails to give satisfaction. P. B. Johnson and Co., druggists, Rushville, Ind. (Advertisement.)

### BEATS MARK TWAIN'S FROG.

Started to Jump After Being Petrified  
a Thousand Years.

Workmen clearing and blasting rock on the L. D. Loomis property in Santa Monica canyon, California, found a frog imbedded in solid limestone, three feet beneath the surface. It had been incased in rock for probably several thousand years.

Apparently petrified, the amphibian was taken by the astonished workmen and laid in the sun. In a few seconds, it is solemnly averred by those who stubbornly hold to the truth of the story, it suddenly showed signs of life. After several minutes it blinked confusedly, drew a long breath and in long leaps traveled 100 feet before the workmen could recapture it. Just think of that! It certainly beats Mark Twain's historical frog.

### WALKED NINE MILES ASLEEP.

Eleven-year-old Girl, Barefooted, Went  
Over Unfamiliar Road.

Mary Ruth Smith, eleven-year-old daughter of Dr. and Mrs. L. L. Smith of Ulrich, Mo., recently walked nine miles while asleep.

She retired at the usual hour. The next morning her uncle, Walter Waugh, north of Maurine, found her on his front porch clad only in her nightgown and an old coat of her father's. Her uncle asked her how she came there, but she only remembered having dreamed some.

She made the trip barefooted and over muddy roads. It is very doubtful if she would have been able to stand the trip if she had been awake. Also she was not well acquainted with the road.

### QUANTRELL SURVIVORS.

The Famous Band Passes Into History  
as an Organization.

The famous Quantrell band passed into history as an organization when a little group of white haired, stoop shouldered old men, Quantrell survivors, met recently in Kansas City, Mo., and organized as the survivors of the Second Missouri cavalry, commanded by Colonel Upton Hays, of which the Quantrell band was a part.

The new organization will have a membership of about fifty. Cole Younger, former bandit chief, was chosen as one of the officers. He said a new organization was necessary because there were so few survivors of the old guerrilla band.

James Berry, seventy years old, of Bond, Miss., declares he is the youngest of twenty-six children, all of whom are living. His father, he says, is 140 years old, and his mother died at the age of 120. Berry has papers from prominent men from his native country in North Carolina to verify his statements.

## FALSE WITNESS GETS A SCORING

Judge Anderson Grills Iron Workers' Vice President.

JOHN T. BUTLER SENT TO JAIL

"For My Part," Says the Court, "I Have Never Seen Such a Display of Perjury as Has Taken Place in This Courtroom in the Last Two Weeks."—Eight Days Apportioned to Argument in Dynamiters' Trial.

Indianapolis, Dec. 18.—The bond of John T. Butler, first vice president of the iron workers, was increased to \$15,000, and Butler was put in jail in default of bond; Clarence E. Dowd of Rochester, N. Y., general organizer of the machinists' union, was discharged by the court, and motions to discharge all other defendants except Dowd were overruled by Judge Anderson, in the dynamite case.

Judge Anderson, following United States Attorney Miller's denunciation of Butler as a perjurer, shot out a few remarks straight from the shoulder concerning the perjury, which he said had been committed within the two weeks the defense has been having its lining.

"I do not like to prejudice anyone before the jury," said Judge Anderson, "but the jury is not here now. Butler took the stand today and swore to what was not true. Everybody in the courtroom knew that he was committing willful perjury. Mr. Marshal, take the custody of Butler."

"Now there is another question here. The people in this country must find out that there is a law in this country and that it must be obeyed. There must be a stop to perjury. If the shoe fits anyone in this room, let him wear that shoe. For my part I have never seen such a display of perjury as has

been shown in this courtroom in the last two weeks.

"The defendant, Butler, when he went on the stand, swore to what he knew was not the truth. He swore to one thing one time and one thing another. Then there has been a great deal of this attempting to explain letters that are not explainable, a great deal of swearing to things as explanations that clearly are not the truth."

Judge Anderson fixed four days for the government and four days for the defense as the time to be allowed for argument before the jury.

There was genuine surprise late yesterday afternoon when the defense in the dynamite trial suddenly closed its evidence without calling nine of the principal defendants to the stand. These men are among those who are said to have had the most significant correspondence with Ryan and McNamara or were declared to have been the most active in the different steps of the alleged conspiracy.

For instance, Tveitmo, Clancy and Munsey, who were said to have been active in hiding J. B. McNamara after he blew up the Los Angeles Times building and then got him out of California, and also were said to have assisted in speeding Mrs. Caplan out of the state to prevent her from being a witness against the Times murderers, were not called to stand. Webb of New York was another who did not go on the stand. It was he who, McManis said, arranged for the Boston opera house and Hoboken jobs and who paid the dynamite \$50 which, he said, Mike Young of Dayton had sent him, thinking that McManis would go first to New York and then to Boston. Hockin was another who did not testify, but this was expected, as his record was so plain his testimony would have injured all the defendants.

Just before court adjourned for the day the district attorney moved that the bond of John T. Butler of Buffalo, first vice president of the ironworkers' organization, be increased. He said that Butler had stated in the courtroom that he wished to God he had stayed in Quebec, as he knew the crime was not extraditable, and for the court's protection the bond ought to be increased. Judge Anderson increased Butler's bond to \$15,000, and said: "This man swore to what he knew was untrue. He made many conflicting statements, and I believe he committed willful perjury. I have been on the bench and about courtrooms for thirty-four years, and I never heard such malicious perjury as has been committed in this case." It was then that Butler was sent to jail.

Butler was the principal witness of the day. He flatly denied that any money had been set aside "for organization purposes" and not accounted for afterward by McNamara.

## MOONSHINER A MECHANIC.

Ingenuous Way in Which He Made a Splendid "Worm."

The copper "worm" of a moonshiner's still was used in evidence in the court of Judge John Elmore, United States commissioner, at Montgomery, Ala. It was a splendid piece of workmanship and was made from very thick copper, and it did not have a seam in it.

Alpheus McGowen of Coosa county, who was being tried for "moonshining," told the judge he made the "worm." When he had beaten and worked the copper into a long gas pipe shape he filled it with white sand and crooked both ends. The tube was then carried to a tree stump and wound about it until the proper shape was obtained. The sand prevented the copper tube from flattening under pressure.

## MADE "HINGES" IN BOY'S JAWS

Surgeons Cut Through Bone and Model Artificial Joints.

A remarkable operation which has resulted successfully was recently performed in Baltimore on a fourteen-year-old boy who since birth had been unable to move his jaws. His parents found it necessary to feed him through a tube, for his jaw bones were stiff, with no normal "hinges."

The surgeon cut through the mass of bone where the joint should have been and modeled upon the sections actual joints such as nature normally provided. The child has left the hospital and now can move his jaws as normal children of his age.

## The Fact That We Are Selling the Most of the Storm Buggies This Year

is easily accounted for. It is no trouble to sell a buggy if you have the best buggy, the best price, and the best terms. We claim these three points of advantage but are willing to leave the matter to you to decide whether or not our claim is a just one. We believe that you will agree with us on this decision if you will take the time to come in and see our stock of storm buggies. We also believe that if we can convince you of the fact that we can give you the best buggy at the best price and on the best terms, and you want a Storm Buggy that we can sell you what you want. Remember our buggies are different in style as well as quality and if you buy one of them, you will be satisfied with it.

## A Queer Excuse.

The directors of the Marion club in Indianapolis, the only real Republican club in that city, voted last night to expel nine members who have gone Bull Moose and who have been active in the leadership of the new party. Albert J. Beveridge, who was the party's candidate for governor, headed the list.

Agitation along this line has been public for some time. It is understood the nine leaders who were under fire were given the privilege to resign, but they refused, notwithstanding the fact that the constitution of the club provides that members shall be Republicans.

But since the directors of the club have let it be known, by a vote of eight to two, that the Bull Moosers are not wanted because they have left the Republican party, the authoritative action of the club is being contested.

The club is primarily a Republican organization. It remains so regardless of what the Bull Moosers within or without the club believe. The new party men who were ousted have an argument for wishing to retain their membership, which is about as thin and groundless as was their "excuse" for leaving the Republican party.

They maintain, mind you, that the contract implied in the Republicanism clause of the Marion club constitution was misapplied when President Taft was fraudulently nominated at Chicago, according to their declaration, whether or not they believe it down in their hearts, and that they were not bound by the clause.

It is a far-fung excuse. Too, it's a far cry from the Marion club constitution to the Republican national convention. It is characteristic of the leaders of this party to wholly disregard the views or desires of others, and to attempt to shape the course of events according to their alleged beliefs. In this instance, there is more than two-thirds of the membership of two thousand which

does not believe any fraud was used in nominating Taft. We would hardly class them reasonable men, granted they were Bull Moosers, should they want to steal the Marion club on such a baseless and groundless pretext.

When Gov. Cole please merely said "hellity-dam" the other day, there was general regret that he should use such pussyfied language.

Gov. Wilson having received 40,000 letters in five months, has probably given up waiting at the post-office until the mail is up.

Don't lose your nerve; everything will come out in wash. A Texas washerwoman was willed a hundred thousand dollars the other day by one of her customers.

## Eating Oranges.

A rural philosopher once remarked, that the only satisfactory way to eat an orange is to go out on the barn floor where there are no carpets, remove all your clothes, and proceed to enjoy the juicy golden sphere.

The annual ripening of the crop of concentrated sunshine suggests that authorities on etiquette are not fully agreed as to what is the strictly orthodox way to capture its aromatic nectar.

It is highly probable, that if you should write to the editor of the Ladies' Home Journal, he would tell you to use the pointed spoon commonly found on the hotel table. Still, the juices of the yellow ball are so tightly held together, that the least misplay of spoon or the slightest over-use of force sends the yellow fluid spurting out on the best table cover.

This does not promote the movement for universal peace.

Much could be said in favor of the good old fashioned way of removing the skin and dividing the fruit into the segments created by nature for just this purpose. The purist in manners may say that such democratic handling of foods by the fingers is more suited to the kitchen than the dining room. Still the practical consideration remains that thereby you retain every drop of this precious ambrosia.

## AMUSEMENTS

"The Playthings of Fate" is the title of a two reel feature Milano picture at the Palace tonight. The picture tells a story in which love plays strong part shielding a woman's honor and a crime.

The Erie theater will have the usual change of program tonight. "The Renegade" is the title of the first picture and the other is "The Retreat from Eden." It is a thrilling western picture.

The Princess offers a Lubin drama "The Players" for the first picture tonight. It is a story of the stage and features Ormi Hawley. The other is a Kalem comedy. "The Belle of the Beach," Friday night a feature program with Maurice Costello and Florence Turner will be shown.

On Thursday, Friday and Saturday, December 19, 20 and 21st, Indianapolis is to have at English's theater a musical comedy the author of which is a native of that city. Theodore M. Stempfel, whose father is the vice-president of the Fletcher-American National Bank, is the young man who wrote the book and Jos. E. Howard, the well known producer, wrote the music and is producing the piece. It is said that Mr. Stempfel has been interested in writing stories and plays ever since his early college days when, as a student at the University of Wisconsin, in Madison, he won several contests.

Mr. Howard believes that "Frivolous Geraldine" is the most promising production he has ever made, and Indianapolis will undoubtedly greet its fellow townsman with open arms. Immediately following the Indianapolis engagement the piece will go to Chicago for an indefinite stay.

—Miss Hazel Harrison entertained a number of young people last evening in honor of her cousin, Herschell Miller, of Rushville, says the Greenfield Reporter. Games were the feature of the evening. Those present were Misses Margaret Floyd, Mabel Toles, Audrey and Freda Miller, Pearl Hendren, Grace Gambrel, Ione Fischer and Messrs. Richard Cooper, Frank and Clyde Hilligoss, Oak Stevens, Oak Harlan and Lester Foster. Refreshments of ice cream, cake and candy were served.

—Mrs. Minnie Abercrombie entertained the Monday Circle this week.

The guest day meeting of the D. A. R., which was to have been held with Mrs. Will Jay tomorrow afternoon, has been postponed indefinitely.

—Mr. and Mrs. Bert Trabue entertained members of the United Presbyterian church congregation at their home at the corner of Seventh and Perkins street last evening in honor of Mr. and Mrs. Will Cherry who will leave Friday for their new home in Wisconsin.

## COMMENDS CHURCH.

Shelbyville Republican: Dr. Virgil W. Tevis returned to his home in Rushville Tuesday, after attending the First quarterly conference at the West Street M. E. church in this city Monday night. Rev. Tevis, who is the district superintendent of the M. E. churches in the Connersville district, stated while here that the affairs of the West Street church were in fine shape and commended the members of the official board for their fine work.

FEDERAL JUDGES IN  
ARCHBALD'S DEFENSE

His Official Integrity Supported  
Before the Senate.

Washington, Dec. 18.—In the Archbald impeachment trial in the senate, George Gray, United States circuit judge for the Third judicial circuit, which includes Pennsylvania, New Jersey and Delaware, took the witness stand and testified to the personal and official integrity of Judge Robert W. Archbald. Judge Gray was backed up in his testimony by his associates in the Third circuit, Judges Buffington and McPherson. All three of the circuit judges testified that Judge Archbald's reputation for official integrity was good.  
When Judge Gray testified, Representative Clayton, chairman of the managers on the part of the house, read to him an old decision from the Pennsylvania state representatives in which Judge Archbald had been criticised along with the organizers of a coal company many years ago, and he asked the witness whether he had ever heard of the case. Judge Gray replied that at the time Judge Archbald was nominated for the commerce court his critics had brought out an old case, and Judge Gray said that he supposed that this was the case Mr. Clayton had in mind.  
A large number of witnesses were called by Judge Archbald's attorneys to give testimony to his character as a judge and a citizen. Among them was the chief justice of the supreme court of Pennsylvania.

## MORE LETTERS ARE PRODUCED

Mr. Hearst Appears Before Senate Committee.

TELLS WHERE HE GOT THEM

For First Time Newspaper Publisher Reveals Source of Standard Oil Letter Files in His Possession, Saying That They Came to Him From an Old Employee of His Paper, but He Didn't Know Where Letter Got Them.

Washington, Dec. 18.—The senate committee investigating campaign contributions and expenditures called William R. Hearst as a witness. He produced six letters that have not heretofore been published, purporting to have passed between John D. Archbold and Senator Penrose of Pennsylvania, former Senator Foraker of Ohio and ex-Congressman Sibley of Pennsylvania. Mr. Hearst's appearance as a witness led to a commotion when Senator Oliver of Pennsylvania insisted that Mr. Hearst should be required to produce before the committee all of the Archbold letters in his custody that have not been brought out heretofore, and Mr. Hearst insisted that he had produced all of such correspondence that had any relation to the present hearing.

It finally was agreed that the jurisdiction of the committee gave it the power to demand the production before it of any correspondence passing between the Standard Oil officers and men in congress, and Mr. Hearst will be required to lay all the letters before the committee to be considered in executive session. It will then be determined just which of them will be received in evidence.

Mr. Hearst told the committee that he knew nothing about the circumstances under which the letters were written and that the correspondence must speak for itself. Ex-Senator Foraker is expected to give a detailed explanation of all the correspondence that passed between John D. Archbold and himself when he takes the stand today. He has overhauled his letter files and probably will produce much additional correspondence that may clear up some matters heretofore obscure.

Mr. Hearst was questioned by the committee as to how he came in possession of the letters. He admitted that he had received photograph copies from John Eddy, who for many years was connected with the Hearst newspapers, but who now is in London. The publisher told the committee he did not know where Mr. Eddy got them, but expressed the opinion that Eddy would be glad to come before the committee and give the information. The publisher explained that Eddy was the author of the articles that appeared in Hearst's Magazine in connection with the publication of the letters.

Of the six new letters laid before the committee, one was from Senator Penrose to Archbold, dated Dec. 4, 1903, at Philadelphia, and read in part as follows:

"I have wired Senator Aldrich to make an appointment with him to discuss the matter referred to in your letter."

The telegram also expressed the willingness of Senator Penrose to meet Mr. Archbold at any time or place he might indicate. The other correspondence related to the proposed loan to Foraker by Archbold, and Mr. Hearst explained that he had understood that this money was returned by Foraker to Archbold very promptly and that he had so stated in his speeches.

The last letter produced purported to have been sent by Archbold to former Representative Sibley of Pennsylvania and inclosed a certificate of deposit for \$5,000, "sent you at the request of Mr. Griscom, the purpose of which you no doubt understood with him."

There was one other witness before the committee, John L. Kennedy of Washington, who was a member of the industrial committee at the time Senator Penrose served on the committee. The testimony of this witness tended to establish the fact that Senator Penrose at no time sought to influence the work of the commission in favor of the Standard Oil or any other interests, and the witness declared that Senator Penrose took less interest in the work of the committee than any other member.

### Death From Strange Cause.

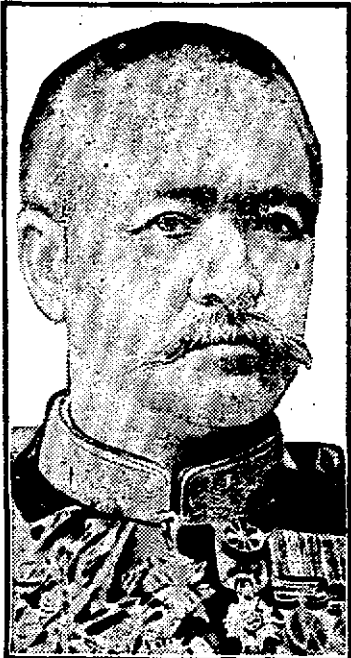

Shelbyville, Ind., Dec. 18.—Roy Stewart, aged ten, is dead at his home in Marion township, having been shot in the right breast in a mysterious manner. There was a shotgun in the house, but it had not been disturbed. It is thought the child found a shell from a shotgun, placed it on the stove, near which he had been playing, and that it exploded.

### Yeggmen Were Disappointed.

Newberry, Ind., Dec. 18.—Yeggmen tried to blow the door of the vault in the Citizens bank of Newberry, but were frightened away after failing on the first attempt. The nitroglycerin that they placed in a hole in the door was not strong enough to break open the safe. Becoming frightened the men fled, stealing a horse and buggy belonging to J. P. Wall to make a quick retreat.

## FURTHER DETAILS OF GOTHAM VICE GRAFT

The Deeper the Probe Goes the Worse the Stench.

New York, Dec. 18.—According to information given out at police headquarters, nine policemen will be brought up for trial Friday in connection with the stories told by Mrs. Mary Goode and others regarding the vice graft in New York. Captains Corcoran and Zimmerman already have been tried and decisions in their cases are still pending. They add two more to the total, making it eleven in all.

Two more keepers of questionable resorts were examined by District Attorney Whitman in person, and several other persons of the same category were examined by representatives of the district attorney's office in other parts of the town. The witnesses were not averse to telling of alleged protection payments, but the prosecutor found the same trouble that heretofore he has encountered—that the further he goes the wider becomes the inquiry. Instead of additional testimony strengthening the evidence against the same collectors, the work of the district attorney's office so far has served rather to produce the names of additional collectors. This outcome naturally delays the presentation of the matter to the grand jury.

## EUROPE'S PEACE STILL IN DOUBT

Negotiations Marked By Doubt and Anxiety.

MILITARY SPIRIT IS GROWING

Not Only Are Military Preparations in Austria Being Pushed Forward With Much Activity, but in Constantinople the Warlike Feeling Constantly Is Growing and Rumors of Intrigue and Plot Are Heard.

London, Dec. 18.—At the very outset the delegates to the peace conference found themselves faced with a difficulty which necessitated the taking of an adjournment for two days in order to allow the Turkish plenipotentiaries to obtain fresh instructions.

This difficulty was not unexpected, as it has been known for some days that the Turkish representatives did not admit that they were on terms of negotiation with the Greeks owing to the refusal of the Greek government to sign the armistice on which alone the peace negotiations are based. Accordingly, when the credentials of the Ottoman delegates were produced it was found that they were only authorized to treat with the Bulgarians, Serbians and Montenegrins. The difficulty was discussed most amicably. The Turks were reminded that they negotiated peace with Italy while they were still at war in Tripoli. It was also pointed out that M. Danoff, the leading Bulgarian delegate, when he was signing the armistice and arranging with the Turks for the peace conference, stated that the Greeks would not consent to a cessation of hostilities. The representatives of the three Balkan states made it clear beyond the possibility of any doubt that they would not enter into negotiations without the Greeks being present.

After a short friendly discussion along these lines an agreement was reached for an adjournment until 1 o'clock Thursday afternoon, in order to give the Turks an opportunity to receive "supplementary instructions." The question of the Greeks signing the armistice now was not raised at all.

While the position of the Turks is admitted to be a logical one in that no overtures for peace have been made to or by Greece and the armistice signed by the Turks provides for negotiations with three belligerents only, it is generally believed that the difficulty will be overcome and that the conference will settle down to serious business on Thursday.

The atmosphere of the conference was charged with doubt and anxiety, as the news from the continent was of a less cheerful tone. Rumors of the constant development of the military spirit at Constantinople and intrigues for the overthrow of the government and its replacement with a military dictatorship, together with reports that Austrian military preparations on a great scale were being pushed forward, are regarded as a re-

minder that the European situation still holds a dangerous menace.

### NOTABLE ALBUM

Contains Names of Nearly a Thousand of Earth's Great Personages.

Washington, Dec. 18.—Louis Barth of Arad, Hungary, an autograph collector, called at the White House and had President Taft sign his name in the most wonderful autograph album the president had ever seen. The president's name was the 95th name in the collection, which includes the autographs of the chief rulers of the earth. Barth said he had traveled many thousand miles gathering the names of famous men. He began his collection about eight years ago and has spent about \$70,000 in the work. He added that his collection of autographs was not for sale at any price, although he had been offered \$300,000 for it. Many near-great persons, he says, have offered him sums aggregating thousands for an opportunity to add their names to the collection.

### A Boy and a Gun.

Shelbyville, Ind., Dec. 18.—Roy Stewart, eleven years old, son of John Stewart, a farmer, was accidentally killed at his home near here when a charge from a shotgun tore its way through his chest. Several members of the family were in the room at the time the accident occurred, but none of them was aware the little fellow was playing with the gun.

### Chiefs of Party Indicted.

Knoxville, Tenn., Dec. 18.—J. S. Beasley, chairman, and George T. Renfro, secretary of the Republican state campaign committee, have been indicted by the federal grand jury on the charge of violation of the civil service act. The indictment is the result of a letter alleged to have been circulated in the federal building soliciting funds for campaigning.

## NORRIS RESIGNS AS COUNCILMAN

Continued from Page 1

er who is ill and who he had not seen for fifteen years.

Dr. Parsons thought the chief should have asked him permission to leave since he is chairman of the police committee. It developed that the chief had seen every member of the council except Dr. Parsons. A motion was finally passed paying Hall as a special policeman and allowed the police chief his regular salary.

City Attorney H. E. Barrett was given power to act in the proposed trade of lots between the city and the Pennsylvania railroad. The deal has been hanging fire for some time.

The city clerk was authorized to borrow six hundred dollars from the Farmers Trust Company to pay the regular bills coming before the council.

The report of A. T. Mahin shows that \$12,344.91 has been spent in improving the water system. This includes the digging of all wells—failures and all—as well as the price of the pumps and other paraphernalia.

Dr. Parsons, who has spent more time in improving the water system, supplement the report explaining that nine wells had been dug and paid for but that only six of them were any good. He said that the well digger had dug several dry holes at his own expense and received no money from the city.

The report of Supt. Mahin follows: Acting under the advice and direction of the finance committee, I have prepared and submitted to your honorable body a detailed report of the expenses incurred during the year in your search for water, together with the cost of pipe lines, electric lines, pump houses, and pumping machinery and equipments installed to pump the water after finding a sufficiency to justify the expense of piping it into the city mains.

The special water committee has caused wells to be drilled in every part of the city limits, as well as in the adjacent county around the city—but only succeeded in getting a supply adequate from one well in the west end (Crowley well) and five wells in the east end, including the wells in the Jones territory and Keating farm, of which but three of them have up to date been connected with the city mains. The total expenditure made by this committee for drilling wells to date, including all dry holes, amounts to \$2271.50. The cost of laying mains, building electric lines, and material for construction of pipe lines and electric lines to reach and connect these wells with the city mains including well houses has reached the total cost of \$4589.75. The pay roll for labor paid to do this work and build the lines, lay the pipe lines and erect the well houses and electric pole lines foots up \$1407.75. The total cost of the electric pumps purchased by you and now installed are summed up as follows:

Two Hill pumps installed in west end ..... \$ 620 75  
One Keystone pump installed at foot of Julian street 1182 00  
Two Keystone pumps installed in Jones territory, but not paid for..... 2182 00  
Making a grand total as

cost of pumps..... 3984 75

### NEVER OVERLOOKED.

Muncie Press: Whatever may be said as to the merits of the several schemes for additional bureaus and departments that are to be proposed to the next legislature, it is evident that the little matter of liberal salaries for some more officeholders has not been overlooked.

## MANILLA DROPS GAME TO LOCALS

Rushville Independents Outplay Visitors and Win by Score of 42 to 29.

### LARGE CROWD SEES CONTEST

Burtch is Real Star, Making Eleven Field Goals—Only is Score Close.

The much talked of Manilla basketball team went down in defeat last night before the local Independents by a score of 42 to 29. Manilla was expected to put up a better game than they did but as it was the Rushville team was an easy winner. The game was very rough, many foul being called, but the roughness only tended to keep the crowd on edge.

Manilla has had things about its own way in basketball in this section with Independent teams during the past three years but the game last night showed that the locals are the real class in this game. The Rushville team played together and the team work soon told on Manilla. The passing of the locals was good and the visitors were kept guessing from start to finish. At only one time did Manilla have a show and then it was not great. This was at the beginning of the second half. Rushville was slow to get started in this period and Manilla gradually got within striking distance. Before Rushville could recover from the slump Manilla was within seven points of tying up score. At this time Rushville led by the score of 28 to 21.

Rushville was the first to score and Manilla came right back with a marker. For several minutes the score was very close but the locals gradually increased their lead and the half ended 21 to 12. Rushville made goals

from all angles and also missed some by narrow margins.

Burtch, for Rushville was the star of the contest. Burtch made eleven field goals and played in really wonderful form. His playing was of the highest order and he was the one big factor in the defeat of Manilla. The balance of the team behind Burtch played good ball and the Rushville team is capable of playing the best teams in the State. Fox and Inlow were the best for Manilla. The game was for the benefit of the First Presbyterian church choir and one of the largest crowds of the season was present. The score and summary:

Rushville (42)	Manilla (29)
Gunning	Position.
Petry	Forward.
Burtch	Forward.
Bnell	Center.
Carroll	Guard.
	Halterman
	Guard.

Field goals—Gunning 4, Burtch 11, Petry 2, Fox 5, Inlow 2, Gardner, Hilligoss 3, Halterman. Foul goals—Gunning 8, Inlow 5. Referee Ferguson.

## VERY LITTLE CORN SPOILED

Last Year 50 Per Cent. of Crop Was in The Fields.

About 5 per cent. of the corn crop is still in the fields, while this time last year 50 per cent. of the crop was ungathered. Hard frosts dried out the corn to such an extent that some is lost by shelling out in handling. The market price is lower now than it has been for years.

Mrs. Lark Walters, of Clarksburg, has received a letter from her son, Harry E. Walters, of Chaleroi, Pa., stating that he had recently been promoted to the position of wire chief in the telephone exchange where he is employed.

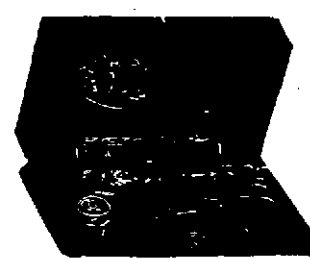

## IS FAST APPROACHING---DECIDE NOW

Broadly speaking, there are but two sorts of Christmas gifts -- those of obligation and those prompted by love -- neither motive will listen to mere cheapness; real worth must be there or both giver and recipient are ultimately disappointed. Logically then "The Gift Store" stands pre-eminent as the Christmas store -- practically it is also the most economical -- abundant stocks and whole hearted service lighten the burden of shopping. New arrivals of late stocks always keeps up interest.
